

20 REASONS FOR fusion²

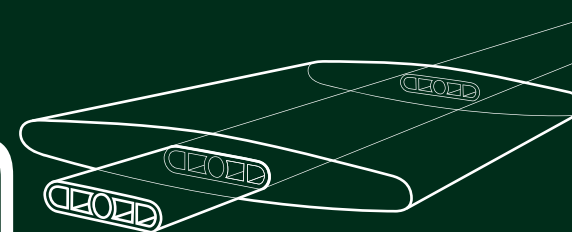

20 YEAR
WARRANTY

- 1 Engineered and manufactured to exacting specifications for the best shutter performance
- 2 More moisture and humidity resistant than any timber shutter material
- 3 Will not crack, chip, split or warp as a shutter under harsh Australian conditions
- 4 Better than timber for fixing and fastening characteristics
- 5 Constructed with high strength joints using both stainless steel screws and adhesive
- 6 Extrusion material is a carbon/ glass fibre reinforced polymer
- 7 Recyclable
- 8 Manufactured from hypoallergenic materials
- 9 Does not support bacterial activity
- 10 Termite-resistant
- 11 Insulates better than the equivalent timber shutter
- 12 Does not support fire combustion
- 13 Will not sag, creep or deform over time
- 14 Contains an aluminium insert for higher strength and increased stiffness
- 15 Finished in Valspar paints
- 16 Surface is repairable and re - coatable
- 17 Easily cleaned without harsh chemicals
- 18 UV-resistant
- 19 Clever sections and detailing helps conceal substrate imperfections
- 20 Outperforms all other shutters known and warranted to look as good as new in 20 years

20 YEAR
WARRANTY

fusion²

adds style and value to your home

fusion20 shutters are slim, elegant, clean, smooth and refined. **fusion20** provides the rich look of timber shutters without timber's inherent problems. **fusion20** performs better, lasts longer than traditional timber shutters and insulates 70% more efficiently.

fusion20 adds style and value to your home.
